H 66438 / Q 66443: paired reconstruction diagnostics, 4 validation cases
Change skill = 1 - change error / true change energy; zero = no-change baseline. These are not free-generation quality scores.
Fixed-noise FM loss (sigma = 0.95)
Early RGB change skill (frames 4-20)
Late RGB change skill (frames 64-80)
Per-case late change skill at step 160
C gradient norm before clipping (8-step mean)
Training seconds / optimizer step (8-step mean)
